

## Space Travel

15th October 2019

Space travel, no hassle, What a marvel, to grasp the fire of our desires.  
Ardent trier, we all admire, High flyer, his heart's desire, out of the mire.  
Rocket man, That's the Plan, all in hand Watch this space, Amazing grace.  
Minds haunted, Spirit undaunted, up on his haunches, he self-launches  
Power underfoot. strapped to his boots. To the air he took. But what's the route?  
Cross-channel flight, with all his might, ETA is tight, Such a sight..  
Into the light, No thought of his plight, to our delight..  
Absolute success, without a mess. We were all impressed when it went to press.  
No exaggeration, A boost to his nation, to his people's elation and admiration.

Outer space, Eternity's base, Space infinite, That's definite.  
Extinction earth, Time for rebirth. Explore the universe, we must traverse.  
Ships aligned, design refined, we'll all be fine it is time for mach nine.  
Leave our planet, Stars to inhabit. Shooting stars, closer now, not so far  
Meteor showers, Exotic flowers, bloom and dies, in the sky, before our eyes  
Meteorites encountered,. Action confounded, not dumbfounded  
Frantic antics, Don't be manic. Not so tragic, Don't panic.  
Space apace, Too much haste. Watch that pace, It's not a race  
Waste of space, Time and place. I rest my case!!
